

WEST PHILADELPHIA HOSPITAL FOR WOMEN.

10

FIFTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

WEST PHILADELPHIA HOSPITAL

FOR WOMEN.

January, 1895.

FORTY-FIRST AND PARRISH STREETS.

OFFICERS.

President.

DR. ANNA P. SHARPLESS.

First Vice-President.

MISS F. B. PEIRCE.

Second Vice-President.

MISS MILA F. SMITH.

Treasurer.

MRS KATHERINE C. STEVENSON.

Secretary.

MISS MARTHA SELLERS.

BOARD OF ADVISERS.

THOMAS SCATTERGOOD,

J. ROBERTS FOULKE,

WILLIAM DE COU,

B. B. COMEGYS,

THOMAS ELKINTON,

JOSEPH B. TOWNSEND.

SOLICITOR.

W. C. STOEVEER.

MANAGERS.

Five members elected annually to serve for a term of four years.

Elected for the Term ending January 1, 1896.

DR. ANNA P. SHARPLESS, 3926 Chestnut St.
MISS FRANCES B. PEIRCE, 3323 Powelton Ave.
MISS MARTHA SELLERS, 3303 Hamilton St.
MRS. FRANCES L. ELKINS, 3317 Baring St.
MISS AMY COMEGYS, 4205 Walnut St.

Elected for the Term ending January 1, 1897.

MISS MILA F. SMITH, 218 N. Thirty-second St.
MRS. W. H. BEARD, 4247 Walnut St.
MRS. PHEBE BROMLEY GORDON, 1502 N. 17th St.
MRS. MARY M. LEEDS, 3221 N. 17th St.

Elected for the Term ending January 1, 1898.

MISS ELIZABETH HASLAM, 213 N. 33d St.
MISS MARY VAUX, 1715 Arch St.
MRS. H. F. WITMER, 1734 Park Ave.
Mrs. JOSEPHINE M. CARTER, 4023 Ogden St.

Elected for the Term ending January 1, 1899.

DR. ELIZABETH H. COMLY-HOWELL, West Chester, Pa.
MISS EMMA DECOURSEY, Beverley, N. J.
MRS. KATHERINE C. STEVENSON, 4703 Springfield Ave.
MRS. ELIZABETH A. MICKLE, 3301 Race St.

MEDICAL WARD.

FIFTH ANNUAL REPORT
OF THE
BOARD OF MANAGERS
OF
West Philadelphia Hospital for Women.

During the past year many important changes have been made in the different departments, which we feel, after months of trial, have added materially to the systematic working of the same, and greatly reduced the friction.

Miss Lucy Thompson, a nurse graduate of New York City Hospital Training School, has been made Superintendent of the Hospital, having oversight of all departments, except the Medical. This is under the management of an attending staff of physicians, aided by a corps of assistants, and two resident physicians. The last are appointed each year, and serve alternately in the wards and out-practice—six months in each. Dr. Margaret F. Butler and Dr. Anna A. Watson, received the last appointments, and have given great and uniform satisfaction in their work.

The attending staff has been enlarged by the addition of Dr. A. Helena Goodwin, dividing the year into four terms, instead of *three*. Dr. Ida E. Richardson is in charge during December, January and February; Dr. Elizabeth W. Griscom during March, April and August; Dr. Helena Goodwin through May, June and July; and Dr. Elizabeth L. Peck the remaining three months, September, October and November.

The number of patients treated in the Hospital during the year, has

been 208. Of these 39 have been entirely free, with an average of 22 days in the Hospital. Twenty-six others have been admitted at low rates, averaging \$2.90 per week, with a stay that averaged a little over 34 days each.

The private rooms are nearly always occupied, offering as they do, a comfortable and quiet retreat, in a homelike Hospital, for either medical or surgical care. Although our charges are moderate, they are a material help in the maintenance fund of the Hospital.

The clinics and dispensary work have increased steadily. It has become a necessity to appoint assistants in the work.

In addition to our daily morning clinics, four *evening* clinics are held on Tuesday, Wednesday, Friday and Saturday of each week, when women who are engaged through the day have an opportunity for medical advice, without losing half-a-day from wage-earning work. 1297 clinic patients have been enrolled during the year, with 5230 visits recorded.

The out-practice connected with the Hospital, numbers 705 patients, to whom 3155 visits have been made. The obstetric work connected with this department is growing, 72 women having availed themselves of the opportunity to be cared for by women physicians.

Our druggist, Miss Scott, has given much satisfaction, by her conscientious and careful work.

We wish to call the attention of our friends and subscribers to the four districts in West Philadelphia, under the care of our Hospital. The distances are too great, and the territory too extensive, to be attended by the one Physician of the Hospital appointed to the out-practice. We have therefore divided the work into Districts, as follows : 1st. All that portion west of the Schuylkill, lying east of Thirty-seventh and north of Baring street, to the Park, is under the care of Dr. Elizabeth W. Griscom. 2d. South of Baring street and east of Fortieth street, to the Schuylkill, is under the care of Dr. Ryder. 3d. South of Baring street and west of Fortieth street, Dr. Adelaide W. Peckham has under her care. 4th. The district contiguous to the Hospital, lying north of Baring street to the Park, and extending west of Thirty-seventh street to Sixty-fifth, is attended by one of the hospital residents.

Any persons requiring attendance at their homes, who are worthy objects of charity, can receive it from one of these physicians, and obtain their medicines from our dispensary, by applying at the Hospital for

such aid. The three out-lying districts are not patronized as much as we think there is need for. As we are desirous of extending our work in this direction, we call your attention to it, hoping for your co-operation in bringing it more prominently to notice.

The rapid growth of work in our Hospital, with inefficient accommodations for the Nurse School, forced upon us early in 1894, the purchase of a house on Ogden street, at the rear of the Hospital grounds, and by its location made readily accessible. The Superintendent and nurses occupy the second and third stories of this house as dormitories. The *first* floor has been altered for the accommodation of the clinics and dispensary. By removing this work from the Hospital building we not only insure quieter service, and remove a source of danger from infection, but by utilizing the space vacated, we have one more commodious ward, enabling us to accommodate six more patients. A toilet room, (the gift of Dr. Sharpless) has been made in the corner of the new ward.

Under the care of our able Superintendent, and her assistant, Miss Strathie, our Nurse Training School has gained a firm foothold, and is now well established. We have graduated eight nurses since the establishment of the school. The first commencement exercises were held October 25th, 1894, when four nurses received their diplomas publicly. We still feel the need of more nurses, and more room for the school. The latter must precede the former, as every available space is utilized. Had we the means at our command, we could increase our capacity, and make the school self-supporting. As it is, we must wait.

Through the generosity of Charles L. Huston and Miss Margaret J. Jefferys, we had the paper removed from the halls of the entire building, and the walls and ceiling painted throughout. Through the liberality of Mrs. W. H. Beard, the floors and staircases were stained and varnished. Another manager, Miss DeCoursey, contributed the renovation of the pantry, with new sink, plumbing and other conveniences. Electric bells have been introduced more extensively through the building, and wires carried to the Superintendent's room, in the Nurse House, that she may be summoned at night, if required. A crematory has also been placed for the immediate burning of all refuse dressings, poultices, etc., from the wards.

Extensive improvements have been effected in the second story of

the Hospital. The auxiliary ward (surgical) has been enlarged by altering the site of partition, to embrace the main part of the communicating ward. Toward this alteration the Auxiliary contributed \$75.00.

The remaining space is used as an etherizing room, and communicates with the Auxiliary ward, the operating room, and the hall, by double doors, on the three sides respectively.

The new operating room is our greatest venture, having been constructed on a most liberal plan.

By extending the walls beyond the original limit of the Hospital, we gained three large windows, north, east and south, respectively, in addition to a fine sky-light. The room is paved with vitrified tile, and the walls are of enameled tile. Facilities for an ample supply of *clear* water, both hot and cold, have been secured, by introducing a Pasteur filter in the circuit. Marble wash stands and basins, with the most recent improvements in plumbing, have been set, and a large copper boiler for sterilizing purposes, completes the water conveniences. The room is furnished with a glass operating table, glass stands, and glass instrument basins, while two handsome closets, with glass doors and shelves, await the instruments so much needed.

The expenses attending these improvements have necessarily been very great, and although so greatly needed, we must have waited long for them, had it not been for the energy and liberality of our President. To her we are indebted for the planning and execution, as well as for the manifest interest she awakened in her friends, the Board of Managers and Medical Staff, for financial aid in the enterprise, and the large balance paid by herself, to the amount of nearly \$2500.00. We feel that in the generous spaciousness, and handsome equipment, we have as fine an operating room as our city can boast. The expenses attending all other improvements and alterations have been met by donations for special objects, and the receipts from the Silver Tea, given upon the opening of the Nurse House.

Our treasury has been severely drained, by an increase of current expenses, and a decrease in the annual subscriptions. These have fallen short, not only by reason of the financial depression of our country, but by the death of several of our most liberal contributors, whose growing interest in *our* growth, had encouraged us greatly. Anthony J. Drexel, George W. Childs, Joseph Jeanes, Samuel Jeanes and Samuel L. Smed-

ley, are names that have been withdrawn from our list of subscribers, by the great summons to "Come up higher." Miss Anna Jeanes generously extended her subscription to cover that of her brothers.

He who has helped us through these five and a-half years of trial and struggle, we feel will help us to the end, as we put our trust in Him.

We hope for some other hearts to be awakened to our needs, and some other hands opened for our relief.

We have again asked for an appropriation from the State, and confidently look for a response.

Thus far we have received no public aid, no bequests, but very substantial help, by voluntary contributions. We have but one endowed bed, yet hope for others, either as memorial beds or simple gifts. We are only five and a-half years old. We began our work with only the first month's rent promised! As we look in retrospection, we feel that the present status must encourage us to press on. That we were *needed* is proven by our patronage and growth. Surely help will come to put us on a firm basis, with our property clear of debt.

The interest of our many friends who have aided us by gifts of money, provisions, household goods, hospital supplies, time, labor and good wishes, is heartily appreciated. If any names have been omitted from our donation list this year, we ask your indulgence. The interruption to system and the annoyance attending the alterations and improvements that have been progressing throughout the greater part of the year, is our excuse. In our hearts we thank you and trust that in the smoother and more systematic working of our Hospital, all will be carefully recorded in the future.

IN MEMORIAM.

As the year was drawing to a close, DECEMBER FIFTEENTH, the life journey of one of our Charter Members,

MARY SELLERS BANCROFT,

Was completed, and she a beloved associate in our labors, and a generous friend of our Hospital, was taken to her rest.

**Report of the Treasurer of the West Philadelphia Hospital for Women,
from Jan. 1st, 1894, to Jan. 1st, 1895.**

Superintendent's Report.

It is five years since the Training School for Nurses, in connection with the West Philadelphia Hospital for Women, was established, in a very modest way, with one pupil nurse. Since that time eight young women have received the two years' course of instruction, and been awarded the Hospital Certificate of approval of their work. With the increased facilities for the accommodation of patients, has come the demand for more nurses, until the school now numbers ten pupils on its roll, with a Superintendent and Assistant.

Even this number is not sufficient for a successful carrying forward of the plans for the school, as it is greatly to be desired that the nurses be sent to care for patients outside of the Hospital, during their second year, thereby gaining invaluable experience, and also increasing the revenue of the Institution. This service it has been impossible to give the nurses in any regular manner, during the past year, owing to the lack of adequate accommodations, which effectually prevented our increasing in number, all our forces being required for the regular Hospital work.

It is a great step forward, however, that this year the nurses are away from the Hospital sights and sounds during the hours allotted for rest and recreation. When more space is provided for sleeping rooms, and a sitting-room, where the nurses may meet in a social way, our aspirations in that direction will seem in a fair way to be realized. As with the other desired improvements, lack of funds is the only obstacle which prevents their being carried to a successful issue.

During the past year four of the pupils have completed their training, and October the twenty-fifth was made the occasion of this public acknowledgment of their achievement. In the afternoon of that day, the pupils, with their friends, and the patrons of the school, assembled in the reception-rooms of the Hospital, and after some delightful music, a prayer was offered by the Rev. Dr. Dixon. Addresses were made by

Dr. James B. Walker, Dr. Elizabeth H. Comly-Howell, and by the President of the Board of Managers, Dr. Anna P. Sharpless, who presided. A vocal solo by Miss Lane was followed by the presentation of the diplomas. An informal reception was then held, and the guests were invited to visit the wards, and the "Nurse House" on Ogden street.

During the year six nurses have been dropped from the school-roll for various reasons. The health of the school has been good, no cases of very serious illness occurring. Through the kindness of some of the physicians connected with the Hospital, weekly lectures have been arranged on the subjects bearing directly upon a nurse's work. Weekly classes are also held. In this, too, the nurses are hampered by a lack of books of reference and appliances to demonstrate the theoretical knowledge imparted to them. However, sufficient advancement has been made toward supplying the various needs of the school to encourage us to renewed effort, and we trust that the coming year, which finds us full of hope, may not leave us until we have been able to make for ourselves a place among the standard schools of our times.

LUCY THOMPSON.

Report of Resident Physician.

We close the year, full of gratitude that we have been enabled to restore so many to health and strength, while the incurable have been much relieved and improved. The records of "toil under difficulty" belong to the past, and we now have facilities for giving our patients the very best treatment and accommodation. The addition of one beautiful new ward, with the remodelling of another, has added much to the comfort and well being of our patients, but as the work widens before us there is an ever increasing demand for more room, especially for maternity patients.

Our new operating room is as nearly perfect in its appointments as possible, and this, with the high standard now maintained in our Training School for Nurses, enables us to give our patients the very best scientific treatment.

Owing to the financial depression of the present year, we have had an increased demand for rates far below the actual cost of supporting the patient, hence there has been an unusual drain upon our funds.

Concerning the amount of work done, our tabulated statement tells more than words, and it is needless to rehearse statistics. The proportionate increase may be seen from the following figures :

YEAR.	Patients treated in Hospital.	Visits to Dispensary.	Visits in Out-practice.	Births in Out-practice.
Jan. 1st, 1890, (6 mos.)	. 19 .	. 734 .	. 231 .	. . 3 . .

Report of Out-Practice.

This department of the work is among the sick who require medical care in their homes, but who feel unable to pay a doctor's fee.

Our effort is not only to alleviate physical pain and suffering, but to lighten the cares of many an overworked mother. Our hearts are often touched by the gratitude shown us for service rendered them.

Recognizing the fact that much sickness comes through ignorance, we try in every way to teach them the first principles of hygiene.

The accompanying statistics show the increase in the number of visits made during the year, which has also called for an increase in the amount of medicine dispensed. Any one wishing to have clothing, books or toys distributed judiciously, may find ready opportunities for it through this Department.

ANNA A. WATSON,

Hospital Physician in Out-Practice.

FIFTH ANNUAL REPORT

OF THE

AUXILIARY

TO THE

West Philadelphia Hospital for Women
and Children.

President.

MRS. A. J. LOECHER.

Vice-Presidents.

MISS E. V. LANE,

MRS. W. KELLEY.

Treasurer.

MRS. E. MILLER.

Secretary.

MISS L. D. JENKS.

COMMITTEES.

Purchasing.

Mrs. GILL, Mrs. MILLER,
 Miss POTTS, Miss E. V. LANE.

Work.

 Miss POTTS,
Mrs. MILLER, Mrs. CAMPION, Miss STEEL, Mrs. HUNT,
Mrs. WALKER, Miss BETHELL, Miss WALKER, Mrs. DIXEY,
 Mrs. SHARPE, Miss JENKS.

Entertainment.

 Miss E. V. LANE,
Mrs. CLINTON, Mrs. GILL, Mrs. LANDIS, Mrs. HALL,
Mrs. BRADLEY, Mrs. SHIPLEY, Miss SHARPE, Mrs. KELLEY,
 Mrs. KENNEDY, Miss A. R. LANE, Mrs. TUTTLE,
 Mrs. McCURDY, Mrs. AYRES.

In 1894 the Society claimed twenty-eight members. The year was an encouraging one, in the prospects of the Auxiliary Free Bed Fund. To mention individual effort, Miss L. D. Jenks' package party netted \$42.25 for the fund. The Auxiliary raised \$31.86 for the benefit of the new home for nurses of the Hospital. Articles furnished for the Ward were: new pitchers, basins and sash curtains, 1½ doz. pillow cases, 1½ doz. sheets, 2 doz. towels, night-gowns, etc.

The Auxiliary gave the usual Christmas dinner to the Hospital. Mrs. L. H. Ayres contributed the ice cream and cake.

Inasmuch as in the year that has passed, the Auxiliary have sustained the great loss by death, of their beloved President, Mrs. W. C. Dixon, the Auxiliary Free Bed will be named in loving memorial of her earnest, unselfish work in the Society.

M. B. WALKER, *Secretary.*

Treasurer's Report.

*Auxiliary to West Philadelphia Hospital for Women, in account with
Ella Miller, Treasurer, from November 3d, 1893,
to November 3d, 1894.*
